

## Asia and Thailand ladyboy

Find your own Thailand ladyboy

There are many people in the world, and we all know that all the people in the whole world cannot have the same tastes in everything. Yes it is true that some people like the same things, like going to movies, like lighting candles in their home instead of putting on their lights like eating meat or not eating meat. We can all agree that there are people around the world that do like the same things, even though they do not know each other, we can also all agree that there are millions of people around the world with things in common, even though they do not know each other. However even though we have things in common, this does not make us the same, we are all different, even identical twins that look the same have things that they like that the other will not like, they do things that they other will not do, and they think things that the other will not think. This is what makes every person in the whole world special in their own special way.

Let's take the person that will call her a ladyboy. A lot of you might be trying to figure out what that is. Well to put it plainly, we all have our desires and wants in life, and we all do what we want no matter what other people say, no matter how close we are to them. If we want what we want, we will get it, no matter what. This goes for anything, like if you want to be an actor, if you want to be a pilot, if you want to be an astronaut, or anything else in your life you will do it no matter what. Now, there are people in the world that do not want to be a certain thing, let's say a person working in accounting, he is good at it and it was the top of his class at college, he is the best, but just because he is the best does not mean that he needs to be in that industry, he might want to be a lawyer, or a mechanic. And the same goes for a mechanic, he might be good at his job and know what he is doing, but he might not be happy there and wants to maybe be a policeman. There are a few people in the world like this, but their wants and needs go deeper than just a job, like say you were born in the wrong body. You were born a female but really feel that you needed to be a male, or you were born a male and really feel that you needed to be a female. That is what brings us to the name ladyboy. There are many of them, and whether you do or not there are people that want to meet them, they want to find them and the best place, is to look in Asia and Thailand, not saying that only these people do this, but that is where they are the most.
